Value Added Tax (VAT)

Our dedicated VAT team offers a variety of creative solutions to help businesses, both locally and internationally, increase their margin and process. Our VAT services range from registration, Implementation, e-invoicing, dealing with customs and VAT return filing and disputes.

Vat Refund for non resident in KSA

If you are a non-resident entity and you have suffered input VAT from the KSA vendors Zakat Tax and Custom Authority “ZATCA” are now allowing the refund under article 70 & 72 of the KSA VAT implementing regulations subject to fulfilling the following conditions as an eligible person.

1. The nonresident entity is VAT registered in the country of its origin.
2. The nonresident entity has not Fixed/Permanent Establishment in KSA
3. The country of non- resident entity has a tax reciprocity with KSA meaning the nonresident entity jurisdiction also allows VAT refund for KSA entities.

In order to claim the refund, the following steps need to be followed:

1. Register as an eligible person before 31 December of the calendar year of claim.
2. Prepare and submit your refund application before 30th June following the calendar year end. For example, for calendar year 2024 the refund application should be submitted before 30th June 2025;

How we can support

We have extensive experience in the refund process under article 70 & 72 and have successfully obtained refund for many clients. We can support you in the following areas:

1. Eligible person registration.
2. Initial due diligence and preparation and filing of VAT refund.

Audit support post submission of refund application.

Excise tax

Excise Tax system will have a big influence on your business if you import, export, manufacture, trade, store, or transport excisable items. We help you in registration and compliance readiness and dispute handling. We offer guidance on how to efficiently structure company transactions, including cross-border deals, to optimize your Excise Tax position and maximize cost efficiency.

Transfer Pricing

Due to globalization, cross-border intra-group transactions are becoming commonplace. Taxpayers must adhere to the regulatory framework in the countries in which they conduct business in an efficient and effective way. We guide you through the preparation of Master files, Local Files, and Country-by-Country reports, ensuring they meet all regulatory requirements and support your transfer pricing policies. In accordance with international transfer pricing rules and commercial business operations, we develop transfer pricing models that are both tax-efficient and globally justified.
